

Palmetto St. Augustine

St. Augustine is the most shade tolerant of all warm-season lawn turfgrasses. West Coast Turf offers Palmetto, a cultivar notable for its exceptional cold tolerance and extended growing season. Its deep root system provides superior drought and heat tolerance. Its dark-green color and medium-fine blade delivers exceptional uniformity under a wide range of light conditions. For use on commercial and residential lawns.

For lawns.

Features and Benefits

Color

- Beautiful dark green.

Texture

- Medium-coarse.

Performance

- Can grow in a variety of light conditions including shade.
- Deep root system ensures drought tolerance.
- Palmetto cultivar provides excellent heat and cold tolerance and extended growing season.
- Palmetto cultivar provides finer texture and improved color.
- Tolerates a wide variety of climates and soil conditions.
- Rapid horizontal spread but slower vertical growth than Floratam or Bitterblue and even some dwarf fescues.
- Requires only moderate fertility and irrigation.

Climate

- Thrives in warm to hot climates
USDA zones 8 to 11.

Shade Tolerance

- Highly shade tolerant, requires full sun part of the day.

Maintenance

- Requires moderate level of maintenance.
