

West Coast Turf's rye-blue is a blend of perennial ryegrass and Kentucky bluegrass for a classic rye-blue lawn with superior disease resistance. Rye-blue is tolerant of wear and shade, has improved heat and cold tolerance and remains green year-round in much of the Southwest. Rye-blue provides a carpet-like turf that can be mowed as low as 1/2". For use on sports fields, commercial and residential lawns, golf course tees, fairways and roughs.

For sports fields, golf courses and lawns.

Features and Benefits

Color

- Beautiful blue-green.

Texture

- Fine.

Performance

- Leading perennial ryegrass provides superior disease resistance, durability, wear tolerance and rapid recovery.
- A dense, upright, spreading turf for nearly any purpose.
- Semi-dwarf bluegrass provides aggressive spreading ability and shade tolerance.
- Combination of ryegrass and bluegrass provides a carpet-like cushion.
- Respectable heat tolerance and superior cold tolerance.
- Remains active in winter and green year-round in many parts of the Southwest.
- Natural dark-green color means less nitrogen is required.

Climate

- Thrives in cool to warm climates, USDA zones 3 to 8.

Shade Tolerance

- Moderately shade tolerant, requires full sun most of the day.

Maintenance

- Moderate level of maintenance required.

Mowing

- 1/2" to 3".

How To Specify West Coast Rye-Blue

Available as sod only. Options are regular, big-roll, thick-cut and washed. Ask about our custom growing service for special turfgrass blends. Other options available from West Coast Turf are expert installation and shipping anywhere in the world.

West Coast Turf— A Full-Service Company

We ship anywhere in the world! Our trucks are standing by to deliver your turf fresh and ready to plant. We can also prepare your turfgrass for shipping by air to any overseas destination. Your turf will arrive healthy and on time.

We can install your new sod!

For any type of project, no matter the scope or location, our skilled crews will use their specialized high-tech equipment to install your new turf quickly and dependably. You can count on our experts to get the job done right the first time.

Options

Regular sod comes in 16" x 72" rolls with 1/2" of soil. Each weighs approximately 45 pounds. Great for normal conditions.

Big-roll sod is 42" x 105', allowing large areas to be sodded quickly and efficiently. Great for large sports fields, parks, cemeteries and golf courses.

Thick-cut sod has up to a 2" soil base that provides anchorage for the sod until its roots knit to the subsoil. Ideal for renovating a sports field that needs to be back in play within a few days.

Washed sod has had soil removed from the roots to help eliminate sod-to-soil incompatibilities and to help the sod knit to the soil faster. Reduces shipping weight.

We can grow your special blend!

Need a specific blend or mix of turfgrass? Our expert farm crews can grow sod to meet your specific requirements—and on time.
