**Regular sod** comes in 16" x 72" rolls with 1/2" of soil. Each weighs approximately 45 pounds. Great for normal conditions.

**Big-roll sod** is 42" x 105", allowing large areas to be sodded quickly and efficiently. Great for large sports fields, parks and cemeteries.

**Thick-cut sod** has up to a 2" soil base that provides anchorage for the sod until its roots knit to the subsoil. Ideal for renovating a sports field that needs to be back in play within a few days.

**Washed sod** has had soil removed from the roots to help eliminate sod-to-soil incompatibilities and to help the sod knit to the soil faster. Reduces shipping weight.
