

Tifway II bermuda has the shortest winter dormancy of all the hybrid bermudas, staying green longer into the fall and greening up earlier in the spring. It is the best bermuda for coastal areas of California. With its great durability, beautiful dark-green color and remarkable recuperative abilities, Tifway II is a top performer on golf courses and sports fields. Also ideal for school playgrounds, parks and heavily used home lawns.

## For sports fields, golf courses and lawns.

Tifway II carpets the fairways at Ocean Trails Golf Club, designed by Pete Dye, in Rancho Palos Verdes, CA.

### Tifway II Bermuda at a Glance:

- Favorite choice of major sports stadiums.
- Shortest dormancy period of all bermudas.
- Excellent durability and wear tolerance.
- Dark green color.
- Medium-fine texture.

### Features and Benefits

#### Color

- Beautiful dark blue-green.

#### Texture

- Medium-fine, slightly coarser than Tifway 419.

#### Performance

- Top ranked in overall-quality studies of bermudagrass cultivars conducted by the National Turfgrass Evaluation Program.
- Resistant to sting, root knot and ring nematodes.
- Shortest dormancy period of all bermudas.
- Recovers quickly from injury with vigorous, dense growth habit.
- Tolerant of heat, poor water quality, heavy foot traffic and drought.
- Stiff leaf blade creates excellent lie for golf balls.

- Tolerates close mowing.

#### Climate

- Thrives in warm to hot climates, USDA zones 7 to 11.

#### Shade Tolerance

- Not shade tolerant, requires full sun all day.

#### Maintenance

- Moderate level of maintenance required.
- Fall overseeding may be required in cold winter climates.

#### Mowing

- 3/8" to 1".

*Life is Short. Sod It!*

## Turfgrass Warranty

*The grass is guaranteed to be in vigorous condition, weed- and disease-free upon delivery to the site. No other warranty is offered or implied.*

### WINTER DORMANCY PERIOD

## Options

**Regular sod** comes in 16" x 72" rolls with 1/2" of soil. Each weighs approximately 45 pounds. Great for normal conditions.

**Big-roll sod** is 42" x 105', allowing large areas to be sodded quickly and efficiently. Great for large sports fields, parks and cemeteries.

**Thick-cut sod** has up to a 2" soil base that provides anchorage for the sod until its roots knit to the subsoil. Ideal for renovating a sports field that needs to be back in play within a few days.

**Washed sod** has had soil removed from the roots to help eliminate sod-to-soil incompatibilities and to help the sod knit to the soil faster. Reduces shipping weight.

**Overseeded sod** is perfect for fall-season installation. No need to overseed!

**Stolons** are broadcast like seed on a prepared bed. Installation is easy and inexpensive.
