

The finest texture of the bermudagrasses, a beautiful dark-green color and tolerance of close mowing are what make TifEagle the highest performing greens-quality bermuda available. Considered the new standard for golf course greens in warmer climates, TifEagle boasts the fastest putting speeds and truest ball roll. TifEagle exhibits less purpling in cool weather and maintains its color longer into the fall. Also for use on lawn tennis courts, croquet pitches and lawn bowling greens. Available grown in USGA sand.

For golf course greens.

TifEagle graces the greens at one of the Coachella Valley's most popular courses, The Golf Resort at Indian Wells, Indian Wells, CA.

TifEagle Bermuda at a Glance:

- High performance on golf greens.
- Tolerates close mowing.
- Available grown in USGA sand.
- Beautiful dark-green color.
- Very fine texture.

Features and Benefits

Color

- Beautiful dark green, darker than Tifgreen.

Texture

- Fine and smooth, finer than Tifgreen or Tifdwarf.

Performance

- Top-rated for low mowing, overseeding ability and overall quality of bermudagrass cultivars in studies at Tifton, GA.
- Bentgrass-greens performance but with greater disease resistance.
- Provides the fastest putting speeds and truest ball roll at lower mowing heights.
- Tolerant of heat, poor water quality, foot traffic and drought.
- Vigorous growth habit promotes quick recovery from injury.
- Overseeds very well in the fall and transitions well in spring.
- Produces stronger root system than Tifdwarf in soil-based or USGA greens.
- Provides denser growth, narrower leaves and more shoots than Tifdwarf.

- Dense growth repels annual bluegrass.

Climate

- Thrives in warm to hot climates, USDA zones 7 to 11.

Shade Tolerance

- Not shade tolerant, requires full sun all day.

Maintenance

- High level of maintenance required.
- Fall overseeding may be required in cold winter climates.

Mowing

- 1/8" to 1/4".

Life is Short. Sod It!

Turfgrass Warranty

The grass is guaranteed to be in vigorous condition, weed- and disease-free upon delivery to the site. No other warranty is offered or implied.

Options

Regular sod comes in 16" x 72" rolls with 1/2" of soil. Each weighs approximately 45 pounds. Great for normal conditions.

Big-roll sod is 42" x 30', allowing large areas to be sodded quickly and efficiently. Great for golf course greens and tennis, croquet and bowling lawns.

Washed sod has had soil removed from the roots to help eliminate sod-to-soil incompatibilities and to help the sod knit to the soil faster. Reduces shipping weight.

Overseeded sod is perfect for fall-season installation. No need to overseed!

Stolons are broadcast like seed on a prepared bed. Installation is easy and inexpensive.

Sand-grown sod meets the stringent requirements established by the USGA.
