

Bandera Bermuda

Bandera Bermuda is West Coast Turf's newest and most versatile drought tolerant bermuda ever produced.

Bandera Bermuda at the StubHub Center in Carson, CA

It is the most aggressive growing bermuda variety we have yet experienced. It's great wear and traffic tolerance, excellent recoverability, versatility in mowing heights, great density and upright growth habit along with great cold tolerance (exceeding TifSport and Tifway II) make it an ideal choice for sports fields, golf courses and landscapes.

FEATURES AND BENEFITS

Color

- > Medium to dark green—Fall and Spring color similar to Tifway II, but darker than Tifway 419

Texture

- > Medium blade thickness and density—similar to Tifway II

Performance

- > Very aggressive growth habit, stolons grow in quicker than any other bermuda we have yet managed
- > Rapid growth and recovery keeps up with heaviest and most demanding turf applications
- > Better wear tolerance than Tifway 419 and better recovery than Tifgreen 328
- > Great winter color and long growing season
- > Upright growth allows for higher mowing height for rough 2-3+". But density allows for tighter 1/2-1" height of cut as well

(cont.)

BANDERA BERMUDA CAN BE SEEN AT:

- > University of San Diego Football/ Soccer Field
- > The Los Angeles Country Club
- > Lake Elsinore Storm Baseball Field
- > Rolling Hills Country Club
- > Lakeside Country Club
- > StubHub Center
- > Rancho Palos Verdes Country Club
- > San Gabriel Country Club
- > Stanford University Football Field/ Practice Football Field
- > Barry Bonds Field @ AT&T Park
- > PETCO Park
- > The Rose Bowl
- > Qualcomm Stadium
- > San Jose Earthquakes Stadium
- > TPC Scottsdale Stadium Course
- > Oakland Coliseum

Life is short. Sod it!

westcoastturf.com

- > Very drought resistant
- > Vast water savings over cool season grasses
- > May be painted with Endurant Turf Colorant in lieu of winter overseeding, thus saving more water

Shade Tolerance

- > Similar to Bull's-Eye Bermuda--full sun preferred, but also exhibits good shade tolerance

Maintenance

- > Moderate level of maintenance required
- > Fall overseeding may be required in cold winter climates

Mowing

- > 1/2" to 3+".
- > Power reel or rotary mower

How To Specify Bandera Bermuda When ordering, please specify sod or stolons. Sod options are regular, big-roll, thick-cut, washed and overseeded. Ask about our custom growing service for special turfgrass blends. Other options available from West Coast Turf are expert installation and shipping anywhere in the world.

Options

- > **Regular sod comes in 16" x 72" rolls or 24" x 60" with 1/2" of soil. Each weighs approximately 45 pounds. Great for normal conditions.**
- > **Big-roll sod is 42" x 105', allowing large areas to be sodded quickly and efficiently. Great for large sports fields, golf courses, parks and cemeteries.**
- > **Thick-cut sod has up to a 2" soil base that provides anchorage for the sod until its roots knit to the subsoil. Ideal for renovating a sports field that needs to be back in play within a few days.**
- > **Washed sod has had soil removed from the roots to help eliminate sod-to-soil incompatibilities and to help the sod knit to the soil faster. Reduces shipping weight.**
- > **Overseeded sod is perfect for fall-season installation.**
- > **Stolons are broadcast like seed on a prepared bed. Installation is easy and inexpensive.**

West Coast Turf—A Full-Service Company

We ship anywhere in the world! Our fleet of refrigerated trucks are standing by to deliver your turf fresh and ready to plant.
