

TIFWAY II

Tifway II bermuda has a shorter winter dormancy of most hybrid bermudas, staying green long into the fall and greening up early in the spring.

Tifway II is the best bermuda for coastal California. With its great durability, beautiful dark-green color and remarkable recuperative abilities, Tifway II is a top performer on golf courses and sports fields. Also ideal for school playgrounds, parks and heavily used home lawns. As a bonus, it is a water saving drought tolerant grass for commercial and residential lawns.

Features and Benefits

Color

- Beautiful dark blue-green

Texture

- Medium-fine
- Slightly coarser than Tifway 419

Performance

- Top ranked in overall quality studies of bermudagrass cultivars conducted by the National Turfgrass Evaluation Program (NTEP)
- Resistant to sting, root knot and ring nematodes
- Shorter dormancy period than most bermudas
- Recovers quickly from injury with vigorous, dense growth habit
- Tolerant of heat, poor water quality, heavy foot traffic and drought
- Stiff leaf blade creates excellent lie for golf balls
- Tolerates close mowing

Climate

- Thrives in warm to hot climates
- USDA zones 7 to 11

Shade Tolerance

- Not shade tolerant, requires full sun all day

Maintenance

- Moderate level of maintenance required
- Fall overseeding may be required in cold weather climates

Mowing

- 3/8" to 1"

Tifway II at a glance

- Short dormancy period
- Excellent durability and wear tolerance
- Dark green color
- Medium-fine texture
- Drought tolerant

Life is short. Sod it!

How to Specify Tifway II

Available as sod and stolons. Sod options are regular or big roll.

Options

- Regular sod comes in 16" x 72" 8 sq. ft. and 2' x 5' 10 sq. ft. rolls
- Big roll sod is 42" wide and various lengths allowing for large areas to be sodded quickly and efficiently. Great for parks, cemeteries, and large commercial lawns
