Coachella BERMUDA

West Coast Turf's exclusive Coachella Bermuda® offers dense coverage, strong drought performance, and quick recovery in coastal, desert, and inland climates.

Developed by the University of California, Riverside and grown exclusively by West Coast Turf, Coachella Bermuda® is a next-generation turfgrass bred for heat, heavy traffic, and limited-water environments. It establishes quickly, forms a tight carpet-like surface, and holds up under consistent use—ideal for golf courses, sports fields, commercial landscapes, and residential lawns.

WEST COAST TURF

Features and Benefits

Color
- Dark blue green genetic color

Texture
- Fine dense texture for a smooth, manicured finish

Performance
- Bred for drought resistance; performs with less water
- Aggressive spreading growth habit
- Superior durability; holds up to heavy foot traffic and fast-paced play
- Built-in disease resistance; naturally resilient against most turf diseases
- Strong heat tolerance, rapid recovery, and improved texture
- Upright growth habit
- Improved winter color retention
- Improved tolerance to glyphosate herbicide
- Moderate tolerance to soil or water salinity—strong performance with recycled water
- Lower seed head production compared to some other bermudas

Shade tolerance
- Prefers full sun; moderate light shade tolerated (not ideal for heavy shade)

Climate
- Thrives in warm to hot climates USDA zones 7-11

Maintenance
- Moderate maintenance required

Mowing
- ½"–1½" recommended

Coachella Bermuda at a glance

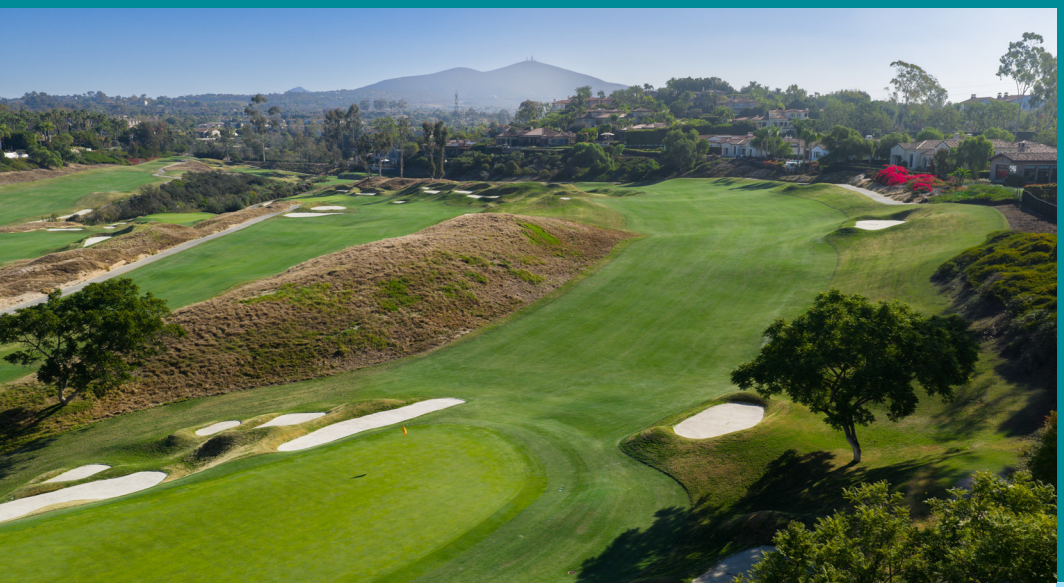
Life is short. Sod it!



WEST COAST TURF

Life is short. Sod it!

"We just completed a major renovation with Coachella Bermuda on tees, fairways and roughs. The color is excellent, density is fantastic, and upright growth is really impressive. The ball sits up really well, and with the drought tolerance we've been able to extend our watering window so we have nice firm conditions."

Troy Mullane, Director of Golf Course Maintenance, The Farms Golf Club—Rancho Santa Fe, CA

How to Specify Coachella Bermuda

Available as sod. Sod options are regular or big roll.

Options

- Regular sod comes in 2' × 4' (8 sq. ft.) and 2' × 5' (10 sq. ft.) rolls
- Big roll sod is 42" × 105', allowing large areas to be sodded quickly and efficiently—great for golf courses, sports fields, and large commercial sites

West Coast Turf—A Full Service Company

We can install your new sod!
